

Dear FCC,

I am a listner to KLOVE radio station. We have this station on all day at work and in our cars. The station's positive and uplifting format is just what we need in this troubled world. I believe that my local community and surrounding area would be greatly effected if they were no longer on the air. Please consider this when making your decision. They are more than a radio station, they are a friend to many people who need their daily encouragement. Thank you very much. Sharon LaBounty
